Spotlight on . . .
Empowering Community Leaders

FCS program leadership advocates the integration of activities that complement the tourism mission. By creating tourism friendly activities, supporting local tourism related venues, and fostering hospitality programs and skills, the FCS program has been successful in enhancing a portion of income produced by this market and in increasing community leadership. Last year’s FCS tourism leadership activities included: 1) teaching leadership skills to 100 Extension Homemakers by using the Southeast Kentucky Tourism Development Association’s Leadership Toolbox; 2) leading SEKDTA’s hospitality training, which included 30 Extension Homemaker leaders; and 3) the development of the area’s first agri-tourism loop connecting 10 separate agricultural related businesses into one marketable, united loop.¹
Our Families
Using data from the 2000 U.S. Census, Johnson County families can be described as follows:2
- 6,877 families reside in the county.
- 1,491 families (21.7%) live below poverty level.
- Median family income is $29,142.
- 270 grandparents are responsible for the care of their grandchildren.

According to the Kentucky Cabinet for Health and Family Services, 5,942 people in Johnson County receive food stamps. The average family food stamp benefit is $204.10 per month.3

In the county, 31 children live in out-of-home care.4
In 2004, there were 134 incidents of adult abuse and 275 incidents of child abuse.5

As a result of participation in Johnson County Extension programs:1
- 340 Food stamp eligible or recipient families consumed more fruits and vegetables daily.
- 250 people increased their knowledge and skills related to parenting and personal relationships.
- 150 people adopted money management practices to reduce debt and/or increase savings.
- 217 people used safe practices to store, handle, and prepare food.

Our Community
Unemployment rates are a key economic indicator. In September 2008, the rate of unemployment in Johnson County was 6.8%. This represented a 13% increase from the September 2007 level of 6%.6

Mortgage and bank card delinquency rates and foreclosure filings are important financial indicators of community well-being. In Johnson County, 0.59% of mortgages are 90-days delinquent and 60-day bank card delinquency rates have increased by 70%.7 In a six-month period (May through October 2008), 35 foreclosures were filed.8

Access to health insurance is another important factor contributing to family well-being. In Johnson County, 16% of the people under age 65 are uninsured.9

As a result of participation in Johnson County Extension programs:1
- 200 adults and youth improved their ability to make informed and effective decisions.
- 155 adults and youth utilized improved skills in communication, problem solving, or group process in addressing community issues and needs.
- 715 people involved in addressing issues of their community.

Our Health
The health of our people contributes to quality of life. The chart below illustrates health risks of adults in Johnson County.

Figure 2. Health Risks.9

As a result of participation in Johnson County Extension programs:1
- 752 people gained knowledge and skills to make lifestyle changes to improve their health.
- 752 people made lifestyle changes to improve physical health.
- 50 people implemented new practices to maintain health and well-being.
