### Spotlight on . . .

**Making Beneficial Lifestyle Choices**

In an effort to address physical activity among citizens of McLean County, the Extension Service partnered with other community organizations and held its first “The Longest Day of Play.” This program is designed to promote physical activity on the longest day of sunlight in the year. This event was held at our county park on a Sunday afternoon when families typically spend the most time together. As a result, 129 people participated in the event. Ninety-nine percent said they would participate again next year. By showing different fun ways to be physically active, the participants said they would make physical activity a part of their daily schedule.¹
