Our People

The 2000 U.S. Census reported total population as **7,065**.² The graph below indicates the percentage by age group.

Figure 1. Population by Age Group² (n=7,065)

Spotlight on . . .

Making Beneficial Lifestyle Choices

The FCS agent, Expanded Food and Nutrition Education Program assistant, and health department dietitian hosted three cooking schools focused on how to prepare food using recipes that have been adapted to lower sugar, fat, and salt content. Pre and post test evaluations indicated that all participants had learned something that would assist them with controlling their diabetes. Many participants brought in their recipes to be analyzed nutritionally and asked for suggestions on how to modify their recipes. The Wolfe County Diabetes Coalition with the help of the FCS agent wrote a successful \$10,000 grant proposal to the Appalachian Diabetes Control and Translation Project.¹

Our Families

Using data from the 2000 U.S. Census, Wolfe County families can be described as follows:²

- **2,038** families reside in the county.
- **610** families (**29.9%**) live below poverty level.
- Median family income is **\$23,333**.
- **41** grandparents are responsible for the care of their grandchildren.

According to the Kentucky Cabinet for Health and Family Services, **2,779** people in Wolfe County receive food stamps. The average family food stamp benefit is **\$194.63** per month.³

In the county, **99** children live in out-of-home care.⁴ In 2004, there were **17** incidents of adult abuse and **44** incidents of child abuse.⁵
