Edith Lovett, County Extension Agent
 Family & Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY

OUR FOCUS

► Family and Consumer Sciences Extension is committed to improving the quality of life for individuals and families in Pulaski County resulting in strong families for Kentucky. Educational programs focus on:

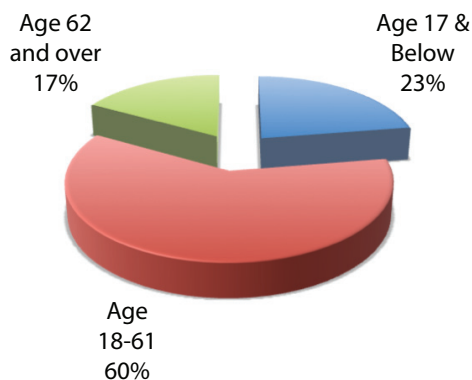

Making Beneficial Lifestyle Choices
Nurturing Families
Embracing Life as You Age
Securing Financial Stability
Promoting Healthy Homes and Communities
Accessing Nutritious Food
Empowering Community Leaders

Family and Consumer Sciences Extension made **29,042** contacts with Pulaski County families during 2008-2009.¹

OUR PEOPLE

Figure 1. Population by Age Group² (n=56,217)

► 2008 estimates from the 2000 U.S. Census reported total population as **56,217**.² The graph on the right indicates the percentage by age group.

SPOTLIGHT ON...

SECURING FINANCIAL STABILITY

One of the biggest challenges facing Pulaski County is the growing number of female inmates in the local detention center, many of them repeat offenders. To address the issue, the Family and Consumer Science agent and the Nutrition Education Program assistants visited the detention center twice a month, conducting classes with the female inmates to help them with personal health, eating habits, budgeting and food preparation skills. Other classes included topics such as how to make a budget and understanding the differences between wants and needs. Extension's "Small Steps to Health and Wealth" program was incorporated to help them see the link between staying healthy and saving money, being able to work, taking care of their families and living a more productive life.¹

OUR COMMUNITY

► Unemployment rates are a key economic indicator. In August 2009, the rate of unemployment in Pulaski County was **10.6%**.³

Mortgage and bank card delinquency rates and foreclosure filings are important financial indicators of community well-being. In Pulaski County, **2.84%** of mortgages are 90-days delinquent and 60-day bank card delinquency rates have increased by **1.59%**.⁴ In a one-year period (October 2008 through October 2009), **39** foreclosures were filed.⁵

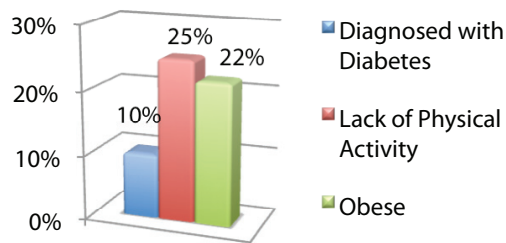

Access to health insurance is another important factor contributing to family well-being. In Pulaski County, **15%** of the people under age 65 are uninsured.⁶

As a result of participation in Pulaski County Extension programs:¹

- **500** people were involved in addressing issues of their community.
- **125** people were prepared to enter the work force.
- **415** people expanded their knowledge of economic development.

OUR HEALTH

► The health of our people contributes to quality of life. The chart below illustrates health risks of adults in Pulaski County.
*Figure 2. Health Risks.*⁶

As a result of participation in Pulaski County Extension programs:¹

- **1,324** people increased knowledge of practices to maintain health and well-being.
- **1,789** people used safe practices to store, handle, and prepare food.
- **542** people developed skills to access affordable food.

OUR FAMILIES

► Using data from the 2000 U.S. Census, Pulaski County families can be described as follows:²

- **16,339** families reside in the county.
- **2,429** families (**14.8%**) live below poverty level.
- Median family income is **\$32,350**.
- **372** grandparents are responsible for the care of their grandchildren.

According to the Kentucky Cabinet for Health and Family Services, **4,789** people in Pulaski County receive food stamps. The average family food stamp benefit is **\$213.77** per month.⁷

In the county, **481** children live in out-of-home care.⁸

In 2005, there were **149** incidents of adult abuse and **215** incidents of child abuse.⁹

As a result of participation in Pulaski County Extension programs:¹

- **600** adults and youth improved their ability to make informed and effective decisions.
- **107** people adopted money management practices to reduce debt and/or increase savings.
- **300** people increased their knowledge and skills related to parenting and personal relationships.
