SPOTLIGHT ON...

MAKING BENEFICIAL LIFESTYLE CHOICES

Washington County is plagued by high rates of obesity and low levels of physical activity among adults. It is our goal to address this problem through educational programs encouraging healthy lifestyle changes. One such program is “Weigh Down Washington County,” now in its seventh year. This program is designed to help participants lose weight and to encourage some type of physical activity. The FCS agent, with assistance from the local health department, area health department, the Nutrition Education Program assistant and the community education director, worked with 79 participants who were challenged to lose 7 percent of their body weight. The entire group lost a combined total of 325.5 pounds. Weigh Down was widely publicized in newspapers, news letter, and church bulletins as well as on radio programs.¹

OUR COMMUNITY

► Unemployment rates are a key economic indicator. In August 2009, the rate of unemployment in Washington County was **13.2%**.³

Mortgage and bank card delinquency rates and foreclosure filings are important financial indicators of community well-being.
