SPOTLIGHT ON...

MAKING BENEFICIAL LIFESTYLE CHOICES

By using LEAP curriculum, the Extension Office, with Family Resource Centers and several school teachers, reached 400 students in pre-school through second grade with critical educational information. The FCS Agent and FSNEP assistants visited six schools, reading stories that encouraged physical fitness, proper oral health, correct hand washing, and healthy eating. Children listened and participated in hands-on activity relating to the book. All students gained knowledge on hand washing and tooth brushing. Teachers reported that 85% of the children aspired to incorporate more physical activity in their school day. One teacher stated, "My class loves to dance and get moving because of your story and the zumba dance that you did with them."¹

OUR COMMUNITY
