Building Strong Families for Kentucky 2012

Our Focus

Family and Consumer Sciences Extension is committed to improving the quality of life for individuals and families in Franklin County. As the current economic situation continues to create challenges, educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities.

In 2010-2011, Family and Consumer Sciences Extension made 5,692 contacts with Franklin County individuals and families.

Spotlight on...

**Making Healthy Lifestyle Choices**

Every year more Americans are diagnosed with diabetes or prediabetes, and numbers are expected to rise due to the obesity epidemic. The Franklin County Family and Consumer Sciences Agent partnered with local dietetic and medical professionals to offer “Taking Control of Your Diabetes,” a 13-week diabetes management program. Initially, of eight participants, two checked blood sugar readings as recommended by physicians, and others did not take readings at all. Most struggled to accept diagnosis. By program's end, they monitored blood sugars on a regular basis, used basic meal planning skills, made better food choices, and four started exercising on a regular basis. The program also inspired them to continue a monthly support group.
