SPOTLIGHT ON ...

MAKING HEALTHY LIFESTYLE CHOICES

Healthy eating and activity patterns are the foundation of good health. Green County Cooperative Extension Service taught "Literacy, Eating and Activity for Preschoolers" (LEAP) to county preschoolers monthly for 10 months. Over 128 preschoolers learned that a healthy lifestyle includes eating a variety of fruits and vegetables and being physically active. After LEAP, 90% were more likely to try a new fruit or vegetable; 80% were more likely to ask for a fruit or vegetable as a snack and to participate in physical activity; and 100% could name at least one or more health benefits of eating fruits and vegetables. An educational newsletter was sent home with the children to encourage parents to set a good example with healthy lifestyle decisions.
