Family and Consumer Sciences Extension is committed to improving the quality of life for individuals and families in Harlan County. As the current economic situation continues to create challenges, educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities.

In 2010-2011, Family and Consumer Sciences Extension made 22,426 contacts with Harlan County individuals and families.

**Population by Age Group**¹

The 2010 U.S. Census reported total population in Harlan County as 29,278.¹

**SPOTLIGHT ON …**

**ACCESSING NUTRITIOUS FOODS**

In these tough economic times, with increasing prices of food and gas, more people are gardening and preserving their garden foods. Fifty-six individuals attended an evening workshop on food preservation taught by the Harlan County Family and Consumer Sciences Extension Agent and Assistant. The participants learned proper and safe techniques for canning, freezing, and drying. The participants gained hands-on skills to better understand the principles behind the various food preservation techniques. Importance of following proper instructions to address the food safety issues for home food preservation was addressed. Relevant UK Extension publications were provided to all participants. 80% said that they learned the importance of proper canning procedures.
OUR FAMILIES

According to the 2010 Census,¹ of families in Harlan County with their own children…

- **68.5%** are husband-wife families
