Family and Consumer Sciences Extension is committed to improving the quality of life for individuals and families in Ohio County. As the current economic situation continues to create challenges, educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities.

In 2010-2011, Family and Consumer Sciences Extension made 3,027 contacts with Ohio County individuals and families.²

### Accessing Nutritious Foods

The Ohio County Cooperative Extension Service is committed to providing nutrition education programs to low income families and individuals who may be struggling with economic hardship due to the economy and/or lack of personal or financial resources. The goals of programs are to educate limited resource families with young children and SNAP-Ed (formerly the Food Stamp program) clientele to plan nutritious meals on a limited budget, acquire safe food handling practices, improve food preparation skills, and change eating and activity behaviors to enjoy a healthier lifestyle. As a result of these programs, 420 people were encouraged to access nutritious foods at local farmers markets and 4,014 youth were taught the basics of making nutritious food choices.
