BUILDING STRONG FAMILIES FOR KENTUCKY

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Crittenden County. To help families make wise decisions our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2011-2012, Family and Consumer Sciences Extension made **13,359** contacts with Crittenden County individuals and families.²

OUR PEOPLE

Population projections by age group for Crittenden County¹

SPOTLIGHT ON ...

MAKING HEALTHY LIFESTYLE CHOICES

Diabetes affects many people, and the CDC estimates that in Crittenden County 9.3 percent of adults have been diagnosed with the disease (2008). Following a 12-week diabetes education course last year, participants asked to form a diabetes support group. In partnership with the district health department the group has met monthly at the Crittenden County Cooperative Extension Office, averaging eight to 10 participants. Each month an educational lesson is presented, along with time for sharing. Post program surveys revealed that 100 percent of participants are now setting and accomplishing goals related to diabetes management. Additionally, 88 percent felt in control of their diabetes after participating. Due to the interest in diabetes in Crittenden County, a Diabetes Coalition was established to seek out grants to assist with diabetes awareness.

OUR FAMILIES

According to the 2010 American Community Survey,³ between 2006 and 2010 it is estimated that in Crittenden County:

- **21.1% (+/- 9.4)** families with related children were below poverty
- **17.5% (+/- 6.8)** of those over the age of 65 were below poverty

In addition:

- **25.4% (+/- 2.4)** of those ages 18-64 did not have health insurance in 2010⁴
