BUILDING STRONG FAMILIES FOR KENTUCKY

OUR FOCUS

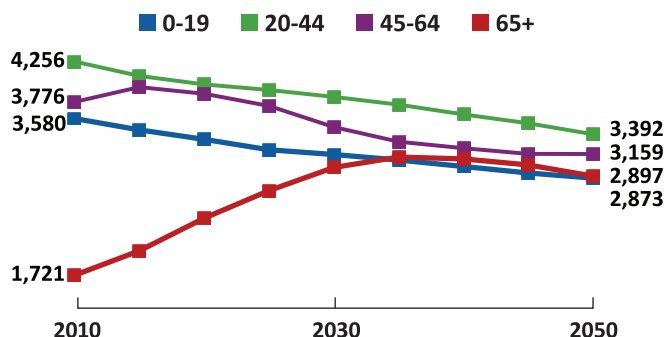

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Magoffin County. To help families make wise decisions our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2011-2012, Family and Consumer Sciences Extension made **23,266** contacts with Magoffin County individuals and families.²

OUR PEOPLE

Population projections by age group for Magoffin County¹

SPOTLIGHT ON ...

TAKING OWNERSHIP OF YOUR DIABETES

Poorly controlled diabetes increases the risk of heart disease, stroke, high blood pressure, blindness, kidney disease, nervous system disease, dental disease, amputations, and other problems. To address this issue, Taking Ownership of Your Diabetes series was offered by the Magoffin County Cooperative Extension Service and partners as a televised education course through local cable media. Participants received the weekly lesson by mail with a reminder to tune in for the 30-minute educational television program. Approximately 35 individuals enrolled in the course. Following the program, an evaluation was collected to determine the results of the self-management program, which found 89% were seeing a doctor for managing their diabetes, 89% had their A1C checked, and 88% were set and met a health care goal related to diabetes.

OUR FAMILIES

According to the 2010 American Community Survey,³ between 2006 and 2010 it is estimated that in Magoffin County:

- **32.6% (+/- 9.5)** families with related children were below poverty
