**SPOTLIGHT ON ...**

**EXPLORING NUTRITION**

With the Kentucky Department for Public Health reporting nearly 60 percent of the local adult population as overweight or obese with a 5 percent occurrence of diabetes and 25 percent occurrence of high blood pressure, it is clear that lack of physical activity and poor food choices are making Boyle Countians ill. To encourage physical activity and healthy food choice habits early in life, Boyle County Extension Service staff shared "Exploring Nutrition with Professor Popcorn" with 1,192 students. Evaluations conducted after the five-day program indicate youth were better able to make healthy food choices, were encouraged to eat more whole grains, increased their weekly amount of physical activity, and were better able to classify foods into food groups.
According to the 2007-2011 American Community Survey, in Boyle County...

- **24.1%** (+/- 5.0) of families with children were below poverty
- **9.0%** (+/- 2.7) of those ages 65 and over were below poverty
- **22.1%** (+/- 1.9) of households had retirement income
- **6.4%** (+/- 1.5) of households had no vehicle

The USDA Food Environment Atlas indicates that in 2010, Boyle County had 6,698 people, 1,414 children and 940 seniors with low access to a supermarket or large grocery store.*
