County Extension Agent, Family and Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Adair County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **8,343** contacts with Adair County individuals and families.¹

SPOTLIGHT ON ...

HEAD START READING PROGRAM

According to the Kids Count Data Center, Adair County's obesity rate is 14.9%. Research has shown there is a natural link between nutrition, physical activity, and reading. The Adair County Cooperative Extension agent for Family and Consumer Sciences visited Head Start monthly to read stories that introduced nutritious foods, concepts for staying healthy, and physical activity. Students engaged in physical activities and food tastings that focused on fruits and vegetables. As a result of the program, teachers reported that 90% of students participated in physical activity at home; 80% would like to try a particular fruit or vegetable at home, and 90% were able to name at least one or more health benefits of physical activity and eating nutritious foods.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY
