Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Bath County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made 11,304 contacts with Bath County individuals and families.

---

**NUTRITION EDUCATION PROGRAM**

The Supplemental Nutrition Assistance Program (SNAP-Ed) in Bath County teaches limited-resource families to improve the nutritional quality of meals, safely prepare meals, and boost food-related resources. Of the 10 families that graduated, 80% showed a positive change in their food intake as a result of learning and building skills and behaviors taught through SNAP-Ed. According to data from a University of Kentucky Food and Nutrition Specialist, each person who receives training about foodborne illness prevention saves Kentucky an estimated $1,000 in health care costs. Behavior checklists completed before and after the program showed that 10 Bath County SNAP-Ed participants reported improved food safety practices, which could potentially save Kentucky $10,000.

Housing has long been recognized as a basic human need. Yet, because housing is often a family’s largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

**AVAILABILITY**

In 2010, in Bath County, there were…
