County Extension Agent, Family and Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences (FCS) Extension is committed to improving the health and well-being of individuals and families in Clark County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **12,572** contacts with Clark County individuals and families.¹

SPOTLIGHT ON ...

NUTRITION FOR SENIORS

According to the National Institutes of Health, research shows that it is important to choose a variety of healthy foods, avoid empty calories, and eat foods low in cholesterol and fat. A diet that follows these recommendations lowers the risk of heart disease, osteoporosis and certain types of cancers in later years. The Clark County FCS agent taught monthly nutrition lessons to help seniors learn the value of healthy eating habits. Lessons included food fats, whole grains, dairy, fiber, heart health, and fruits and vegetables. Response to follow-up questions found that 80% were eating more fruits and vegetables; 70% were making healthier food preparation choices; and 50% were increasing whole grain in their diets.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY

In 2010, in Clark County, there were...³

- **4,604** renter households
- **9,663** homeowner households
- **550** vacant housing units for rent
- **249** vacant housing units for sale

According to the Kentucky Department of Education, in 2012-2013, **18** children were homeless or were precariously housed in Clark County.⁴
