# BUILDING STRONG FAMILIES FOR KENTUCKY 2015

### OUR FOCUS

Family and Consumer Sciences (FCS) Extension is committed to improving the health and well-being of individuals and families in Crittenden County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **13,051** contacts with Crittenden County individuals and families.<sup>1</sup>

### SPOTLIGHT ON ...

## WORKFORCE WORKSHOP

**"P**reparing for the Workforce" was the title of a workshop co-sponsored by the Crittenden County Extension Service and Pennyryle Area Community Services (PACS). The workshop helped unemployed people prepare for a job search and present themselves professionally. Six individuals attended the six-hour training, which included sessions on how to write a resume, given by the library director and dressing for success, given by the FCS Extension agent. Participants got a haircut, learned to put on makeup and had a manicure. The PACS director reported that two participants are now employed as a result of the training. A second seminar for six new participants was planned for September.

**H**ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
