## SPOTLIGHT ON ...

## LEARN WITH US

**T**he Gallatin County Cooperative Extension Service collaborated with the Northern Kentucky Community Action Commission, Family Resource Center, and various community agencies for a countywide Christmas assistance program. To participate, families had to meet specific guidelines and attend programs. Extension organized a "Learn with Us" series attended by 183 adults. Session topics were: Many Milks, Cooking with Herbs, Where Does Your Money Go, Healthy Beverage Choices, Laundry Basics, and Pest Management. There were 84 families that received assistance with Christmas gifts. Evaluations indicated that 100% of participants agreed or strongly agreed that the program's information can be used to improve the lives of their families.

**H**ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
