County Extension Agent, Family and Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Garrard County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **11,446** contacts with Garrard County individuals and families.¹

SPOTLIGHT ON ...

HEALTHY COOKING CLASSES

Monthly cooking classes are conducted at the Garrard County Cooperative Extension Office by the Family and Consumer Sciences agent. Participants help prepare recipes and clean up. Recipes are chosen from the Food and Nutrition Calendar, Plate It Up Project, and other UK nutrition publications. Teaching focuses on food safety, preparation, cooking, and nutritional benefits. Participants regularly learn about new recipes and are introduced to new ways to serve and prepare foods. As a result of this program, participants learn correct methods of measuring, how to read a recipe, and how to change recipes for healthier results. As one participant said, "I've been cooking for 25 years and didn't know there were two different measuring cups that made a difference in how much you were adding."

<http://hes.uky.edu/StrongFamilies>

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY

In 2010, in Garrard County, there were...³
