BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Grant County. To help families make wise decisions, our educational programs focus on:

- Making Healthy Lifestyle Choices that influence health and well-being
- Nurturing Families as they cope with fewer resources and more demands
- Embracing Life as We Age to live independently longer
- Securing Financial Stability in a turbulent economic period
- Promoting Healthy Homes and Communities that recycle, reduce waste, and protect our environment
- Accessing Nutritious Food that is affordable, available, and safe
- Empowering Community Leaders as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **8,366** contacts with Grant County individuals and families.¹

OUR PEOPLE

Median household income by housing type* (2008-2012)²

SPOTLIGHT ON ...

UNIVERSAL DESIGN FOR THE HOME

Products and environments designed and built without regard for individual needs, age, ability, or status in life can limit those who want to age at home. Fifty-two people attended two workshops and tours on "Universal Design for the Home." Prior to the programs, 72% were unfamiliar with universal design. After the programs, 62% reported making minor changes at home such as lever handles on doors, sinks, and tubs; bathroom grab bars; lighted light-switches and night lights; and nonslip rugs. Three participants are making major changes: a walk-in shower with seat and grab bars; a chair lift and hand rails on steps; pull-down shelves in a kitchen; and a ramp into the home.

ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

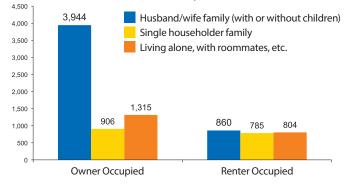

AVAILABILITY
