## SPOTLIGHT ON ...

### HART COUNTY FARMERS MARKET

**T**he Hart County Farmers Market is in its ninth season and continues to grow. Extension staff worked extensively with the farmers market board on marketing plans to increase attendance and sales for vendors. The staff also worked with the Kentucky Department of Agriculture and Abundance of Hart to secure and distribute \$9,000 in senior coupons for the 2013-14 season, with an 89% redemption rate. The market also accepted WIC farmers market coupons, with a 46% redemption rate. The new clients put more dollars in the vendors' pockets and more fresh, local foods in the hands of seniors and low-income families, making it a win-win for Hart County.

**H**ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
