BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Leslie County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **5,975** contacts with Leslie County individuals and families.¹

SPOTLIGHT ON ...

BONE HEALTH

Osteoporosis is a disease that causes bones to become fragile and more likely to break. If it is not prevented or is left untreated, osteoporosis can progress painlessly until a bone breaks. Research indicates that osteoporosis is responsible for more than 1.5 million fractures each year. The Leslie County Cooperative Extension Service offered a Bone Health Luncheon to address the importance of increasing calcium and vitamin D in the diet, increasing physical activity, and early prevention of osteoporosis. The 75 individuals who attended sampled a calcium-rich meal. A three-month follow-up survey of participants found that 79% increased their physical activity, 68% increased calcium intake, and six had had a bone density test.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY

In 2010, in Leslie County, there were...³

- **811** renter households
