

McCRACKEN COUNTY

Denise Wooley,

County Extension Agent, Family and Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences (FCS) Extension is committed to improving the health and well-being of individuals and families in McCracken County. To help families make wise decisions, our educational programs focus on:

- Making Healthy Lifestyle Choices that influence health and well-being
- Nurturing Families as they cope with fewer resources and more demands
- Embracing Life as We Age to live independently longer
- Securing Financial Stability in a turbulent economic period
- Promoting Healthy Homes and Communities that recycle, reduce waste, and protect our environment
- Accessing Nutritious Food that is affordable, available, and safe
- Empowering Community Leaders as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **33,714** contacts with McCracken County individuals and families.¹

OUR PEOPLE

SPOTLIGHT ON ...

LEARN TO COOK

The McCracken County Master Food Volunteers and FCS Extension agent teamed up with Paducah Parks and Recreation to hold a monthly cooking/life skills series on the basics nutrition, simple cooking skills, meal planning, and the importance of eating together. The effort aimed to create healthier families. Before classes began, the majority of the participants reported eating out frequently and consuming prepackaged foods. The program focused on preparing homemade meals, eating together as a family, using a grocery-shopping list, and menu planning. By the end of the series of eight monthly classes, the participants improved their menu planning, used a grocery shopping list and sat down to eat more family meals together.

ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

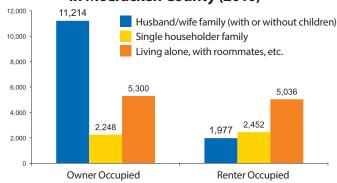

AVAILABILITY
