County Extension Agent, Family and Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in McCreary County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **11,895** contacts with McCreary County individuals and families.¹

SPOTLIGHT ON ...

GET MOVING McCREARY COUNTY

The "Get Moving McCreary County" program conducted by the Cooperative Extension Service consisted of six weight management lessons. Participants discussed problems associated with their own weight management and community issues that may stifle the progress of weight loss or weight management. Participants received self-assessment tools to evaluate health and track progress, and a healthy recipe and taste sample, as well as a nightly syllabus to use as reference. At the end of each lesson, the nine participants said they would use this information to implement change, as necessary, to their individual diets and the activities and diets of their household. Many also noted their plan to use the recipes in their own homes.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY

In 2010, in McCreary County, there were...³

- **1,757** renter households
- **4,720** homeowner households
- **199** vacant housing units for rent
