BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Ohio County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **11,819** contacts with Ohio County individuals and families.¹

SPOTLIGHT ON ...

WEIGHT THE REALITY SERIES

As part of the "Weight: The Reality Series" program, the Ohio County Cooperative Extension staff collaborated with the Ohio County Hospital and Family Wellness Center to implement 10-week programs in two locations in Ohio County. Thirty-five individuals participated at the Extension office and 11 participated at the Fordsville National Furniture work site. As a result of these programs, participants lost a total of 180.2 pounds. In surveys after the classes, 32% of participants said they were more knowledgeable of the recommended daily servings for fruits and vegetables. In addition, 89% had made positive lifestyle changes. Examples include increased consumption of fruits and vegetables, increased consumption of water, and increased physical activity.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY

In 2010, in Ohio County, there were...³

- **2,109** renter households
- **7,067** homeowner households
- **116** vacant housing units for rent
- **105** vacant housing units for sale
