## SPOTLIGHT ON ...

### PULASKI PROMOTES HEALTHY LIFESTYLES

**M**ore than 1,500 pounds has been lost by residents this year in Pulaski County because of weight loss programs and physical activities. The "Eat Healthy-Be Healthy" program promoted a healthy lifestyle in the fall. "Pounds Off Pulaski County" was offered during the winter months with more than 180 of some 200 people completing the program. Working on Wellness (WOW), a collaboration of Extension, the local chamber of commerce, Pulaski County Health Department, Lake Cumberland Hospital, and the public schools, continues through the year and promotes a weekly walking program and a monthly run.

**H**ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
