SPOTLIGHT ON ...

ESTATE PLANNING SERIES

Russell County Extension Office's Estate Planning series covered steps to build an estate plan, goals for an estate plan, specific estate planning tools (power of attorney, trusts, and wills), the probate process, and gift and estate tax laws. All 46 participants reported an increased awareness in handling current estate planning issues and better understanding of estate planning. One program participant said, "I will do more planning for retirement and having a plan for wills and funeral preparations, along with long-term estate planning." Participants reported that \$214,500 was saved as a result of the program.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
