## SPOTLIGHT ON ...

### HEALTH AND WELLNESS

**T**he Trigg County Extension FCS agent is a part of the Trigg Health and Wellness Team, a joint effort among local stakeholders to reduce obesity by promoting physical activity. The team sponsored two events — Trigg County Day of Play and the Trigg County Amazing Family Race. Community groups sponsored booths that offered physical activities for families, such as relay races and obstacle courses. More than 80 families registered at each event. Both events provided ideas for activities that families could do at home. An informal evaluation was given to adult participants and 40% responded. All participants said that they were more active with their children at home as a result of the events.

**H**ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
