BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Trimble County. To help families make wise decisions, our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to live independently longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** that recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available, and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **15,948** contacts with Trimble County individuals and families.¹

OUR PEOPLE

SPOTLIGHT ON ...

RECIPE FOR LIFE

Family mealtime and support, literacy, and nutrition are vital life skills and are embedded in many of the 40 developmental assets identified by The Search Institute. The Recipe for Life Project was a collaborative effort with the Trimble County Cooperative Extension Service and many community partners. Through the program, 100 fifth-grade students improved their communication and social skills by working in small groups with the common goal of preparing a dish for a group meal. Students learned the importance of proper hand washing, food sanitation, how to read and prepare a recipe, knife safety, and table setting and manners. They were encouraged to participate in family-time discussion at the dinner table.

Housing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

AVAILABILITY

In 2010, in Trimble County, there were...³

- **747** renter households
