WEBSTER COUNTY Katie Alexander, County Extension Agent, Family and Consumer Sciences

BUILDING STRONG FAMILIES FOR KENTUCKY 2015

OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Webster County. To help families make wise decisions, our educational programs focus on:

- Making Healthy Lifestyle Choices that influence health and well-being
- Nurturing Families as they cope with fewer resources and more demands
- Embracing Life as We Age to live independently longer
- Securing Financial Stability in a turbulent economic period
- Promoting Healthy Homes and Communities that recycle, reduce waste, and protect our environment
- Accessing Nutritious Food that is affordable, available, and safe
- Empowering Community Leaders as we all work to sustain and improve our communities

In 2013-2014, Family and Consumer Sciences Extension made **9,488** contacts with Webster County individuals and families.¹

SPOTLIGHT ON ...

VIRTUAL DEMENTIA TOUR

The Webster County Family and Consumer Sciences Extension agent worked with UK's Family Life Education Specialist to present a "Virtual Dementia Tour" to the citizens of Webster County. This 20-minute simulation allowed participants to experience life through the eyes of someone with dementia. The simulation helped the 26 participants better understand memory loss and the challenges it can bring to caregivers. Half of the participants have a family member with a form of dementia. All of the participants said the simulation helped them better understand what their loved one was going through and, as a caregiver, it gave them a better understanding of how to help their loved one live a better life with dementia.

ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.

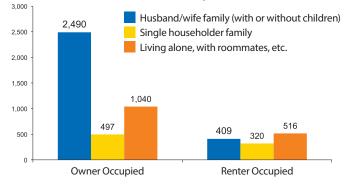

AVAILABILITY

In 2010, in Webster County, there were...³
