BUILDING STRONG FAMILIES IN TODD COUNTY

OUR FOCUS
Family and Consumer Sciences (FCS) Extension is committed to improving the health and well-being of individuals and families throughout Kentucky. Our educational programs focus on making healthy lifestyle choices, nurturing families, embracing life as we age, securing financial stability, promoting healthy homes and communities, accessing nutritious food, and empowering community leaders.

OUR SUCCESS
In 2016-2017, Cooperative Extension made 25,343 contacts with individuals and families in Todd County.¹

Jill Harris
County Extension Agent, Family and Consumer Sciences Education

A HEALTHIER KENTUCKY
Making healthy lifestyle choices

80% of counties in Kentucky implemented programs promoting healthy lifestyle choices.¹

86% of counties in Kentucky implemented programs promoting healthy homes and communities.¹

Easy access to unhealthy foods, increased stress, and limited opportunities for physical activity all create challenges and barriers for Kentucky families in making healthy lifestyle choices. Family and Consumer Sciences (FCS) Extension programming through the University of Kentucky teaches families to improve health and well-being by choosing a nutritious diet, increasing health literacy to help prevent chronic diseases, or participating in regular physical activity. Our goal is to equip citizens with the knowledge, resources, and an environment where the healthy choice is the easy choice.

Number of farmers market locations by Kentucky county²

- 0 (7 counties)
- 1-2 (73 counties)
- 3-4 (34 counties)
- 5-7 (4 counties)
- 8+ (2 counties)
