IN BREATHITT COUNTY

BUILDING STRONG FAMILIES

IN BREATHITT COUNTY

OUR FOCUS

Family and Consumer Sciences (FCS) Extension is committed to improving the health and well-being of individuals and families throughout Kentucky. Our educational programs focus on making healthy lifestyle choices, nurturing families, embracing life as we age, securing financial stability, promoting healthy homes and communities, accessing nutritious food, and empowering community leaders.

OUR SUCCESS

In 2017-2018, Family and Consumer Sciences Extension made 6,862 contacts with individuals and families in Breathitt County.¹

Kayla Watts
County Extension Agent, Family and Consumer Sciences Education

A HEALTHIER KENTUCKY

Parenting skills for family success

By using effective parenting skills, parents help children become responsible, caring adults and productive members of society. However, limited resources can make it hard for parents to get formal parenting training. In Kentucky, Family and Consumer Sciences (FCS) Extension through the University of Kentucky provides parenting skills programs. As these programs strengthen families, they also empower our communities. Our goal is to provide educational opportunities to help every family succeed.

2017 estimated population under 18 years old²

- 453 to 2,326
- 2,330 to 3,512
- 3,556 to 5,422
- 5,668 to 10,320
- 10,347 to 171,882

Families face many challenges, including poverty, readying children for their school careers, and supporting children who are being harassed or bullied. Some parents also are unable to raise their children and must turn to relatives for help. No matter the challenge, FCS helps families succeed.

**It takes a village**
A growing number of children are being raised by other relatives, especially grandparents. The American Community Survey (ACS) estimates that between 2012 and 2016 in Breathitt County, **328 (+/- 103)** grandparents lived with and were responsible for their grandchildren, and **358 (+/-108)** grandchildren were being raised by their grandparents. For **169 (+/- 70)** of those grandchildren, there was no parent present. Of all children living in all households, **76 (+/- 51)** were stepchildren, **54 (+/- 37)** were adopted children, and **129 (+/- 117)** children were living with other relatives.

**The safety of our children**
For families, child safety is a priority that can be jeopardized in many ways. In Breathitt County in 2017, **45.5%** (34.5% - 56.5%) of all families with school-aged children lived below poverty, and there were **73** child victims of substantiated abuse or neglect in 2016. In the schools, there were **20** reported incidences of harassment, which included bullying, in the 2016-2017 school year for all school districts in Breathitt County.

**Kindergarten readiness**
The first five years of life are vital in a child’s development and success in life. In 2017, Breathitt County had an estimated **793** children ages 5 and under. Of those children, **104** were enrolled as preschoolers.

In Breathitt County, **47.4%** of students entered kindergarten ready to engage in and benefit from early learning experiences in the 2016-2017 school year.

In Kentucky, as a result of FCS Extension...

- **8,270** parents and/or caregivers reported improved personal strengths, communication and life skills that strengthen families.
- **5,690** individuals reported behaviors that fostered the optimal development of children and youth.
- **5,623** parents and/or caregivers reported practicing parental leadership skills.
