A HEALTHIER KENTUCKY
Parenting skills for family success

By using effective parenting skills, parents help children become responsible, caring adults and productive members of society. However, limited resources can make it hard for parents to get formal parenting training. In Kentucky, Family and Consumer Sciences (FCS) Extension through the University of Kentucky provides parenting skills programs. As these programs strengthen families, they also empower our communities. Our goal is to provide educational opportunities to help every family succeed.

Families face many challenges, including poverty, readying children for their school careers, and supporting children who are being harassed or bullied. Some parents also are unable to raise their children and must turn to relatives for help. No matter the challenge, FCS helps families succeed.

For 80 (+/- 72) of those grandchildren, there was no parent present. Of all children living in all households, 73 (+/- 46) were stepchildren, 34 (+/- 28) were adopted children, and 37 (+/- 30) children were living with other relatives.
