Our People

The 2000 U.S. Census reported total population as **33,144**.² The graph below indicates the percentage by age group.

Figure 1. Population by Age Group² (n=33,144)

Spotlight on . . .

Embracing Life as You Age

According to the KY Institute of Medicine, positive health factors for Clark County include a strong per capita income and favorable health habits. Another positive indicator includes the second lowest incidence of diabetes in the state. Unfavorable findings report sedentary lifestyles, lung, colorectal and prostate cancers. With these factors in mind the FCS agent lead nutrition lessons to assist Clark County Senior Citizens in overcoming these unfavorable health conditions. Topics include alternative sweeteners, fiber, selection of fruits and vegetables, food safety habits and healthy food preparation. Many individuals have reported using the recipes at home, are adding more fruits and vegetables and whole grain (fiber) to their diet.¹

Our Families

Using data from the 2000 U.S. Census, Clark County families can be described as follows:²

- **9,521** families reside in the county.
- **802 families (8.4%)** live below poverty level.
- Median family income is **\$45,647**.
- **295** grandparents are responsible for the care of their grandchildren.

According to the Kentucky Cabinet for Health and Family Services, **6,034** people in Clark County receive food stamps. The average family food stamp benefit is **\$226.51** per month.³

In the county, **42** children live in out-of-home care.⁴ In 2004, there were **30** incidents of adult abuse and **115** incidents of child abuse.⁵

As a result of participation in Clark County Extension programs:¹

- **2,300** adults and youth improved their ability to make informed and effective decisions.
- **5,200** people increased their knowledge and skills related to parenting and personal relationships.
- **67** people adopted money management practices to reduce debt and/or increase savings.
- **2,220** people used safe practices to store, handle and prepare food.

Our Community

Unemployment rates are a key economic indicator. In September 2008, the rate of unemployment in Clark County was **6.4%**. This represented a **42%** increase from the September 2007 level of **4.5%**.⁶

Mortgage and bank card delinquency rates and foreclosure filings are important financial indicators of community well-being. In Clark County, 90-day mortgage delinquency rates have increased by **26%** and 60-day bank card delinquency rates have increased by **25%**.⁷ In a six-month period (May through October 2008), **60** foreclosures were filed.⁸

Access to health insurance is another important factor contributing to family well-being. In Clark County, **12%** of the people under age 65 are uninsured.⁹
