Figure 1. Population by Age Group² (n=19,923)

Spotlight on . . .

Making Beneficial Lifestyle Choices

The Lake Cumberland Cancer Consortium, including Cooperative Extension and other area health professionals, teamed up for a skin cancer prevention campaign. A \$1,000 Health Education through Extension Leadership grant purchased sun safety educational display items. Wayne County FCS reached 3,415 youth and adults. A pre and post test of high school students showed that more than one-third did not know that melanoma can be curable if detected early, and that fair complexion red heads and blonds are more at risk. Twenty people from Wayne County were given free skin screenings by a local dermatologist.¹

Our Families

Using data from the 2000 U.S. Census, Wayne County families can be described as follows:²
