SPOTLIGHT ON ...

SECURING FINANCIAL STABILITY

As the economic downturn continues, Family and Consumer Sciences Extension Agent remains committed to programming that helps families save money. Budgeting information, hosting free CPR classes, and sharing nutritious yet budget-friendly recipes are vital parts of Extension's outreach in the community. Two workshops have been held on couponing this past year, and a coupon exchange station is maintained at the Extension office. "Garrard Saves," a newsletter that is distributed to the community offers a monthly reminder about saving. All recipients submitted a savings goal; 15% are on course to reach their goal. Using University of Kentucky publications and materials, seven students learned goal-setting, establishing priorities, paying bills, stretching money, and using local resources to save money.
