SPOTLIGHT ON ...

MAKING HEALTHY LIFESTYLE CHOICES

Recently the Journal of the American Medical Association reported that about 35% of adolescents are overweight or obese and that the "obesity-hunger paradox" arises in part from a lack of knowledge of how to prepare nutritious, inexpensive food. The Owen County Family and Consumer Sciences Agent, staff and Homemaker volunteers implemented "Recipes for Life," a six-day event for 155 fifth graders. Students prepared lunch and learned cooking techniques, calorie and nutrient information, food safety, and related health issues. As a result, approximately 60% have used the recipes at home. During the spring, Farm Safety Day, sponsored 4-H Council with community organizations, was held for fifth graders. During a kitchen safety module, students detected and corrected hazards.
