### SPOTLIGHT ON ...

## FEEDING HUNGRY CHILDREN

Children who suffer from food insecurity often do not perform well academically, display unacceptable behavior, and have poor school attendance. To combat this problem, Edmonson County Cooperative Extension Service, in conjunction with the Feeding America-Kentucky's Heartland organization, has provided a weekend backpack program for children identified as potentially being hungry. Nutritious, easy-to-prepare foods are sent home in backpacks on Friday afternoons to ensure that participating children have something to eat until they return for breakfast on Monday morning. In Edmonson County, 101 students from Head Start through high school participated in the program for the 2011-2012 school year. Local businesses and organizations have provided donations of food. In addition to community support, a grant from the Emergency Food and Shelter Program has been secured for the past three years.
