# BUILDING STRONG FAMILIES FOR KENTUCKY

### OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Grant County. To help families make wise decisions our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2011-2012, Family and Consumer Sciences Extension made **15,806** contacts with Grant County individuals and families.<sup>2</sup>

### SPOTLIGHT ON ...

## IMPROVED HEALTH RANKING FOR GRANT COUNTY

Recent reports released by the Trust for America's Health and the Robert Wood Johnson Foundation indicate that obesity is on the rise, with Kentucky ranked as the sixth highest state with 31.5 percent of adults considered obese. The "2012 County Health Rankings: Kentucky" show Grant County as number 74 out of Kentucky's 120 counties in the area of health behaviors. This is an improvement over past years which may be attributed to efforts of the FFLAG (Fitness For Life Around Grant County) coalition. The Grant County Cooperative Extension 4-H/Youth Development and Family and Consumer Sciences are active participants of the coalition with such programs as the Biggest Winner Challenge, which was held for the eighth year in April 2012.

## OUR FAMILIES

According to the 2010 American Community Survey,<sup>3</sup> between 2006 and 2010 it is estimated that in Grant County:
