# BUILDING STRONG FAMILIES FOR KENTUCKY

### OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in LaRue County. To help families make wise decisions our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2011-2012, Family and Consumer Sciences Extension made **16,123** contacts with LaRue County individuals and families.<sup>2</sup>

### OUR PEOPLE

Population projections by age group for LaRue County<sup>1</sup>

### SPOTLIGHT ON ...

## MAKING HEALTHY LIFESTYLE CHOICES

Studies have shown that a reduced sodium intake can lower blood pressure, prevent hypertension, can help control hypertension, and can prevent cardiovascular disease. FCS agent taught three classes in the area to a total of 50 persons on the topic of Shake Down on Sodium. As a result of the program the top three behavior changes planned by participants are: to read food labels more closely for sodium content and ingredients that contribute sodium; will work to decrease the amount of sodium they consume daily; and rinse canned vegetables to remove some of the salt. The class also increased their interest in doing more food preparation and home canning for themselves and using fresh herbs or other seasonings instead of salt.

## OUR FAMILIES

According to the 2010 American Community Survey,<sup>3</sup> between 2006 and 2010 it is estimated that in LaRue County:

- **19.3% (+/- 6.1)** families with related children were below poverty
