# BUILDING STRONG FAMILIES FOR KENTUCKY

### OUR FOCUS

Family and Consumer Sciences Extension is committed to improving the health and well-being of individuals and families in Leslie County. To help families make wise decisions our educational programs focus on:

- **Making Healthy Lifestyle Choices** that influence health and well-being
- **Nurturing Families** as they cope with fewer resources and more demands
- **Embracing Life as We Age** to strive for independence longer
- **Securing Financial Stability** in a turbulent economic period
- **Promoting Healthy Homes and Communities** to recycle, reduce waste, and protect our environment
- **Accessing Nutritious Food** that is affordable, available and safe
- **Empowering Community Leaders** as we all work to sustain and improve our communities

In 2011-2012, Family and Consumer Sciences Extension made **20,381** contacts with Leslie County individuals and families.<sup>2</sup>

### OUR PEOPLE

Population projections by age group for Leslie County<sup>1</sup>

### SPOTLIGHT ON ...

## INCREASING HEALTHY FOOD CHOICES

According to the Foundation for a Healthy Kentucky, 37 percent of Kentucky youth ages 10 to 17 are overweight or obese. To help fight the problem in Leslie County, Family and Consumer Sciences and 4-H Youth Development agents partnered with the local board of education to teach Exploring MyPyramid to 426 students in first through fourth grades. In six lessons students took part in physical activity exercises and sampled new foods. Pre- and post-tests were given to the students, with the results showing: 86 percent learning that MyPyramid shows healthy food choices; 72 percent eating fruits every day or most days of the week; 72 percent eating whole-grains everyday or most days of the week; and 75 percent reporting that they are physically active every day.

## OUR FAMILIES

According to the 2010 American Community Survey,<sup>3</sup> between 2006 and 2010 it is estimated that in Leslie County:

- **18.7% (+/- 7.1)** families with related children were below poverty
- **21.8% (+/- 7.7)** of those over the age of 65 were below poverty

### In addition:

- **23.7% (+/- 2.2)** of those ages 18-64 did not have health insurance in 2010<sup>4</sup>
