### SPOTLIGHT ON ...

## TRASH TO TREASURE

**T**he downturn in the national economy, downsizing and the need to reduce debt are reminders of the old saying, "Use it up! Wear it out! Make it do! Do without!" With the "Trash to Treasure" program, the Oldham County FCS agent used repurposed items and do-it-yourself ideas to show ways to make living spaces more attractive. Of the 70 participants, 80% said that they felt more confident in planning and carrying out home decorating and 36% planned to recycle and repurpose at least one home furnishing item that they currently own. One participant said that used home furnishings had always been part of her life. She said, "This presentation made me feel very proud of what I own."

**H**ousing has long been recognized as a basic human need. Yet, because housing is often a family's largest expense and largest debt, it can be a stumbling block for many. Safe, lower-cost housing options are often limited for struggling families, and this can lead them into crisis. Family and Consumer Sciences Extension helps people improve home safety, lessen their environmental footprint, and strengthen financial stability. It also helps communities promote healthy lifestyles throughout the lifespan by supporting strong family home environments. Please tell us ways you think we can do more.
